

August 2011

Daily Service Extended On Highway 120 Route:

Because of the late opening of the Tioga Pass Road for summer 2011, the YARTS Board of Commissioners approved the extension of the daily service on the Hwy 120 route, between Yosemite National Park and Mono County, through September 9.

Normally service in September would be on weekends only, but the approved change means that the weekend only service will not start until September 10 and continue for the remainder of the month.

No new schedule will be issued, but the service will be available as stated above.
